 Prati kompaniju

Saga New Frontier Group je jedna od vodećih IT kompanija na tržištu sa tradicijom dugom tri decenije. Sa više od 400 zaposlenih, Saga učestvuje u mnogim značajnim tehnološkim projektima u zemlji i regionu. Verujemo da tehnološki razvoj menja svet na bolje i zato ponosno ističemo naš širok portfolio, koji podrazumeva najsavremenija sistemska rešenja, razvoj složenih softverskih rešenja po meri korisnika, kao i razvoj sopstvenih softverskih proizvoda baziranih na primeni veštačke inteligencije, mašinskog učenja i data science-a.

ABOUT US

Describe what you do, what your corporate values are, what kind of culture you foster and why you are the natural habitat of IT talents. :)

Our warm friendly advice: phrases like “the top” or “the best software company” are outdated. Describe your culture in an authentic, but realistic and believable way. Candidates can sniff fake. ;)

{ O NAMA }

NAŠI LJUDI

IZ NAŠEG PERA

IT INSAJDER

O NAMA

Saga New Frontier Group je kao sistem integrator lider na tržištu tehnoloških inovacija.

Zahvaljujući ekspertizi naših zaposlenih, bliskoj saradnji sa klijentima i upotrebi najnovijih tehnoloških dostignuća već godinama razvijamo i implementiramo rešenja koja transformišu poslovanje naših klijenata i prave razliku.

Bavimo se realizacijom složenih IT projekata, gde naši zaposleni imaju priliku da aktivno učestvuju u svim fazama uspostavljanja informacionog sistema, počev od ideje i analize potreba korisnika, preko instalacije data centra i implementacije systemske platforme, do razvoja i implementacije softverskog rešenja.

Posedujemo više od 1600 stručnih sertifikata. Radimo na najkompleksnijim IT projektima na tržištu. Naša softverska rešenja bazirana na veštačkoj inteligenciji uspešno plasiramo i globalno. Najviše smo ponosni na činjenicu da su za sve naše uspehe najviše zaslužni naši zaposleni, i zato je naš moto... „IT's not about technology, IT's about PEOPLE!“

Ako si sistem inženjer, arhitekta rešenja, biznis analitičar, programer, baviš se mašinskim učenjem ili je jednostavno IT deo tvog koda, Saga je pravo mesto za tebe i tvoj profesionalni razvoj!

TECH STACK

Tech stack is a set of technologies used by your IT teams. It is a combination of programming languages, frameworks, libraries, patterns, servers, UI/UX solutions, softwares and other tools used by your programmers.

BENEFITS

State all the benefits your employees have.
There is an option to click-open clarification of each.

Beneficije

Konferencije i obuke u zemlji i inostranstvu

Rad sa modernim tehnologijama, alatima i okruženjima

Rad na različitim projektima

Soba za odmor

Wellness

Sportske aktivnosti

Sistematski zdravstveni pregledi

Biblioteka za zaposlene

Program psihološke podrške

Dotacije za jaslice

Obuka vozača

U sklopu programa psihološke podrške svim zaposlenima su obezbeđeni individualni i grupni koučing i psihoterapijski susreti sa profesionalnim koučevima i psihoterapeutima koji im pomažu da razviju svoje potencijale i veštine, kao i treninzi na različite teme.

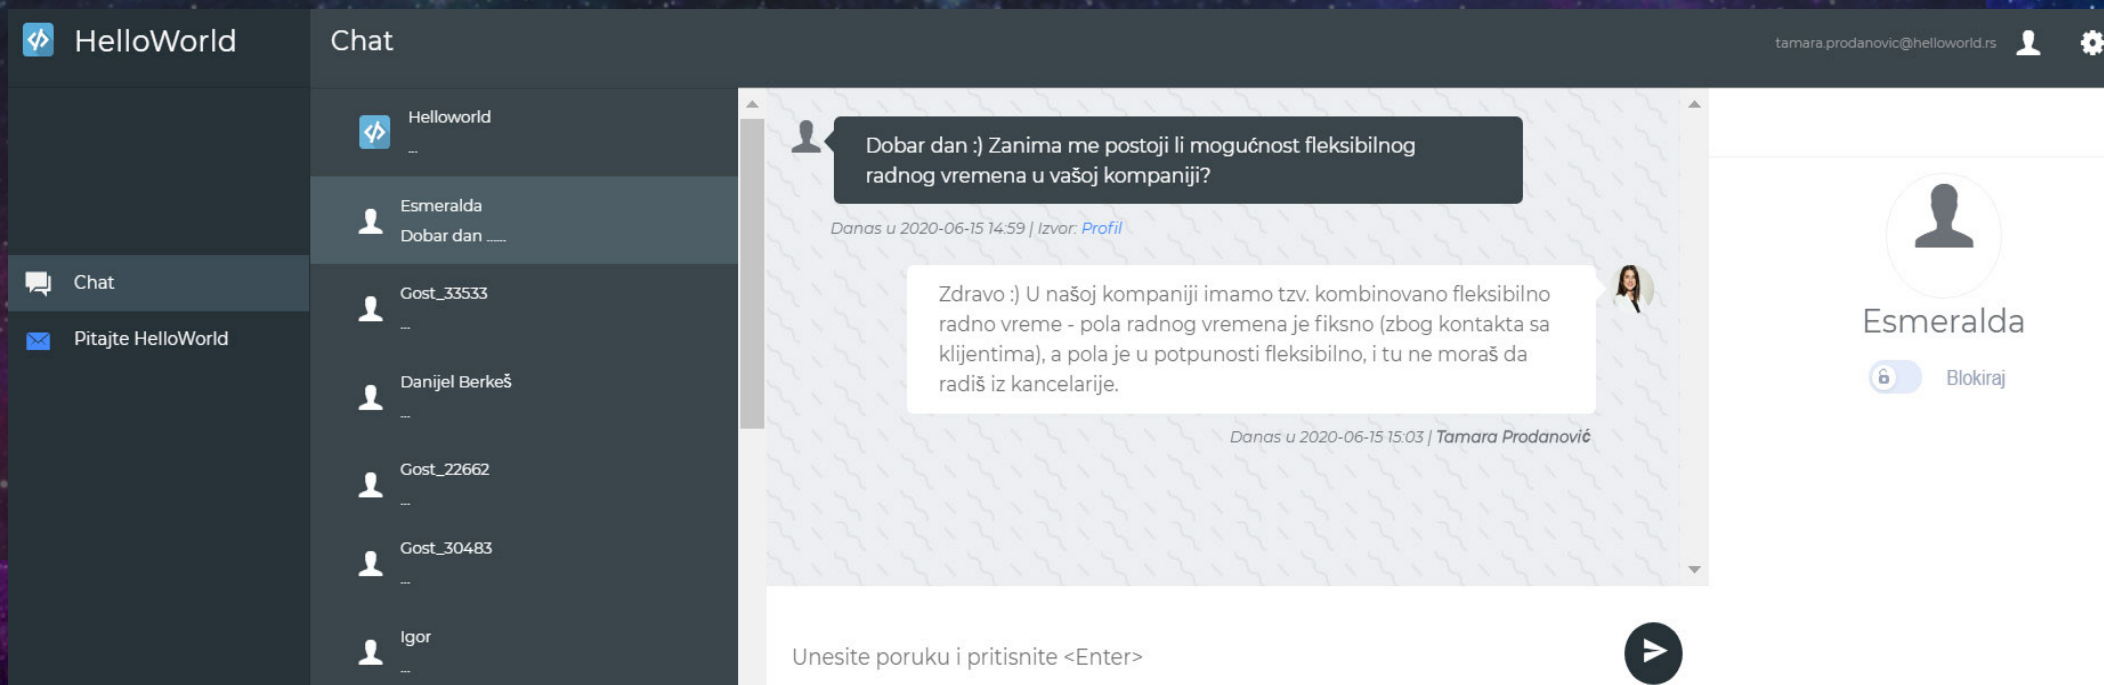

CHAT

Communicate with the company
Tamara Prodanović
Team Lead

You are undoubtedly aware of the importance of continuous communication with your target group, given the generally known lack of qualified staff. To make it easier for you, we offer an option to chat with candidates on our site. The interested candidates can ask questions, and you can answer through a simple and intuitive dashboard. There's a picture of your company's representative (next to the green/red online indicator), who will be answering question. All messages received while you are online will be delivered in e-mails the next morning.

The screenshot displays the chat interface for HelloWorld.rs. On the left is a sidebar with a list of chat conversations, including 'HelloWorld', 'Esmeralda', and several anonymous users. The main chat window shows a conversation with 'Esmeralda'. The user asks: "Dobar dan :) Zanima me postoji li mogućnost fleksibilnog radnog vremena u vašoj kompaniji?". The representative, Tamara Prodanović, replies: "Zdravo :) U našoj kompaniji imamo tzv. kombinovano fleksibilno radno vreme - pola radnog vremena je fiksno (zbog kontakta sa klijentima), a pola je u potpunosti fleksibilno, i tu ne moraš da radiš iz kancelarije." On the right, the profile of 'Esmeralda' is visible, with a 'Blokiraj' (Block) button.

PHOTO GALLERY

Depict the atmosphere in your offices, in team building sessions, moments captured by paparazzi during meetings, or when a junior programmer busts his mentor in a game table tennis. A picture is worth a thousand words, they say.

OUR PEOPLE

We hope that we share the opinion that people are a company's greatest asset, the essential resource. Introduce your brand ambassadors, young lions and golden veterans. Here's a secret for you: our people trust your programmers more than your marketers and HR. ;)

IT INSIDER

IT Insider is a service where all interested parties can find information on employers in the IT industry and read experiences about work as well as experiences from job interviews. When commenting, former and current employees evaluate general impression about the company, promotion opportunities and benefits offered by employers, and also define positive or possible negative sides of work. IT Insider project is the first of this type on the national IT market, and currently plays an important role in the national IT community, enhancing transparency of work in companies.

Pozitivni utisci o kompaniji

Odnos u timu je fantastičan, svi su jako posvećeni i veoma odgovorni. Projekti su jako zanimljivi i izazovni. Dobijaš redovni feedback od menadžera i imaš osećaj da je tvoj rad...

Negativni utisci o kompaniji

Trenutno nemam zamerke.
